

## ***united transportation union***

### **REASONS TO SIGN AN A CARD**

- **Send a message to the MTA and ACRE that you are not satisfied.**
- **Even if you are undecided if the UTU is a better solution to your representation needs, sign the A card to compel ACRE to explain activities over the past five years.**
- **True reform. If you decide to select the UTU to represent you, there will be an open election of all officers (the current officers of Local 77 are temporary) and new local By Laws will be written to ensure accountability and fiscal responsibility of officers.**
- **The process is completely anonymous. No one will know if you signed an A card, unless you tell someone you did.**
- **Many new issues, elements of change and another contract will confront train service employees in the near future. You need a union that will fight for you, not defend the Company position. The LIRR unions will not accept co-payment of Health and Welfare for employees without a fight. They will not present the issue to their members for a contract vote. ACRE will not perform in the same manner.**
- **An opportunity to possibly restore your working agreements that have been compromised under ACRE's tenure.**
- **Enough A cards have been returned to indicate member dissatisfaction with ACRE's performance.**
